To use libraries and information sources effectively, there are some terms that you simply need to know. *Library Terms: A Glossary*, available at <http://lib.nmsu.edu/instruction/libterms.htm>, will help you both to complete the crossword puzzle below and to become familiar with essential library-related words.

**Across**

1. The list of works cited by an author at the end of an article, paper, book, or other research-based writing.
2. The collective issues of a periodical that constitute the whole published within a definite time period.
3. A type of journal containing articles primarily of interest to those in a specific industry or profession. Also known as a "professional journal."
4. Series of bookcases or sections of shelving used for holding a library's collection.
5. A type of database containing only records for information sources owned by a particular library.
6. A special type of call number assigned to government documents. The first letter indicates the government agency responsible for the document.
7. A general-interest periodical that has a broad, wide audience. *Time* and *Glamour* are examples.
8. A single, uniquely-numbered or -dated part of a periodical or newspaper.
9. A brief description of a work's content. Generally found at the beginning of an article in a journal, or with a citation in a bibliographic database.
10. You can place a \_\_\_\_\_ on a book currently checked out to another person to ensure that you will be next in line to receive the book when it is returned.
11. Like footnotes in their purpose, but placed at the end of an article, chapter, or book.
12. References to information sources. They appear at the bottom of pages within the document.
13. A general term for anything published at regular intervals (daily, weekly, monthly, yearly, etc.), including magazines, journals, and newspapers.
14. The information given in an index or catalog about a particular information source. May include article title, periodical title, book title, place of publication, publisher, volume, pages, and date.
15. A \_\_\_\_\_ manual is a book that tells the reader how to format citations for footnotes, bibliographies, etc.
16. A listing of sources cited in a research paper. Always used whenever there are parenthetical citations. May also be used with footnotes or endnotes.
17. An extension of the loan period for materials checked out from the library.
18. \_\_\_\_\_ references are citations placed within the body of a paper.

19. To be checked out of the library for use.
20. Conditions allowing copying of materials for the sake of research and teaching.
21. The point or idea which is at the core of and to be proved by a scholarly work. Also a name for a paper or project produced in partial or complete fulfillment of the requirements for a Master's degree program.

**Down**

1. A reference \_\_\_\_\_ is another name for a Works Cited listing.
2. Any publication originating in or issued with the imprint of, at the expense of, or by the authority of any government or governmental agency.
3. Where materials are placed to be used by all students in a class.
4. A \_\_\_\_\_ journal is a type of periodical whose articles are written, generally, by professional academics and reviewed by the author's peers before being published. Differs from a magazine or a trade journal.
5. A shorter work that makes up part of a larger work like a journal volume or an encyclopedia.
6. A collection of records describing information resources. Usually computerized.
7. An evaluative summary of a work. Unlike an abstract, it attempts to tell how good an information source is.
8. The letters and/or numbers assigned to a book to give it a unique location in a library. Generally based upon the subject of the book.
9. A type of microform product used for preserving print materials. This has a rectangular rather than a roll format.
10. The act of taking another's intellectual property and passing it off as one's own. Severely punished in academic settings.
11. To check out an item to someone.
12. An identification number used with computerized information systems to ensure that individuals have secure access to information about themselves and/or information restricted to their user community.

# Library Research & Reference Help

## *Introduction to Library Research*

Not sure how to find and use library information resources?

Get acquainted with the basic elements of the research process and introduce yourself to the GMU library system, available electronic resources, and how to organize and evaluate information

You may arrange an individual appointment by contacting Heather Groves Hannan at (703) 993-8344.

## *EndNote: Managing Your Information*

EndNote can help you organize information for both short and long term projects.

Learn how to import bibliographic citations from many popular Mason Library databases into your personal EndNote database and insert citations and bibliographies into your research papers.

You may arrange an individual appointment by contacting George Oberle at (703) 993-9012.

**“CAUGHT IN THE ACT” AWARDS** - Ever had a Library or other ITU employee go the “extra mile” for you? Let them know you noticed!

Send an e-mail to [itucustomerservice@gmu.edu](mailto:itucustomerservice@gmu.edu) with a short description of what made you notice the service. Include the ITU staff member's name, and if you know it, the department. The Customer Service Standards Team will recognize the exceptional customer service immediately on the ITU Customer Service Web site, [itucustomerservice.gmu.edu](http://itucustomerservice.gmu.edu), and send them a small reward as an acknowledgement that they've been "Caught in the Act".

## The Library - A Different Perspective

The library is an area known for studying and concentrating. The requirement for both of these is “silence.” The capacity to sit quietly, avoid the distraction of a laptop or cellphone is becoming a rare ability.

Try silence for a moment, specifically after you’ve finished web surfing or studying. Turn off your computer, cell phone and anything else that may intrude. Simply sit and listen. “What do you hear?” Open your journal and jot down what comes to you during those moments.

Perhaps you will tap a new level of creativity, perhaps you will deepen an understanding or perhaps you will simply hear the song of a bird you’d never noticed before. **-Written by Ava Koohbar**

### ***Did You Know?***

#### ***There’s a quick way to get materials we don’t own!***

George Mason students, faculty, and staff may borrow books and have articles sent directly from other WRLC (Washington Research Library Consortium) libraries rather than using the standard interlibrary loan procedures common to all libraries. This direct borrowing service allows students and faculty to receive books and articles from other WRLC libraries more quickly (generally within 2 business days).

**Please note:** students and faculty requesting items to be sent to the Prince William Campus need to allow somewhat more time for the delivery of the item(s).

For more information and directions on how to make a request, refer to:

<http://library.gmu.edu/libinfo/cls.html>

## George Mason & Virginian Life in the 18<sup>th</sup> Century

This excerpt is from a letter written by George Mason to a group of merchants in London. The merchants had written a letter directed to the colonists in New York, but it applied to all colonists, that admonished them for their combative resistance to the Stamp Act and other acts of Parliament, and urged them to comply with the demands of the Mother Country. Mason eloquently expressed the views of most colonists who were quickly becoming outraged at what they considered unfair taxation by Great Britain.

June 6, 1766

There is a Passion natural to the Mind of man, especially a free Man, which renders him impatient of Restraint. Do you, does any sensible Man think that three or four Millions of People, not naturally defective in Genius, or in Courage, who have tasted the Sweets of Liberty in a Country that doubles it's Inhabitants every twenty Years, in a Country abounding in such Variety of Soil & Climate, capable of producing not only the Necessaries, but the Conveniencys & Delicacys of Life, will long submit to Oppression; Such another Experiment as the Stamp-Act would produce a general Revolt in America.[2]

### *Architecture in the Afternoon Tours*

*The first Sunday of each month, April through October, 2:00pm  
Gunston Hall Plantation*

See Gunston Hall from a different perspective! Under the tutelage of an expert guide, explore the mid-18th-century architecture of George Mason’s home. Between 1755 and 1759, Mason engaged the services of William Buckland, a young English carpenter/joiner, who embellished the interior of Gunston Hall. While featuring the building’s exteriors, your 45-minute tour also will take you inside the mansion.

Adults: \$8; Seniors (60 and above): \$7. The tour is recommended for persons 12 years and older.
