#### Welcome Back!

Welcome back to all students, faculty, and staff!! Mercer Librarians and staff members look forward to working with the Prince William Campus community during the Fall 2004 Semester, as we also welcome the addition of Bull Run Hall. Mercer Library continues to receive new items for the circulating and non-circulating collections each month. In addition, Mercer Library also houses the only "computer lab" in the Occoquan Building. We look forward to working with all of you this semester, so please drop in and visit as often as you can!

## **LIBRARY RESEARCH WORKSHOPS**

### **Introduction to Library Research**

Not sure how to find and use library information resources? Schedule a drop-in appointment to get acquainted with the basic elements of the research process and be introduced to the GMU library system, available electronic resources, and how to organize and evaluate information.

Sessions are held in the Mercer (Prince William Campus) Library, Occoquan (PWI) Bldg, Rm. 104J. Please call 993-8348 to arrange an individual appointment.

Flyers detailing the new schedule of drop-in classes for the fall semester will be available soon in the library and at <http://library.gmu.edu/research/classes.html>.

## **DATABASE SPOTLIGHT**

*IEEE Explore Announces New Journals*

New journal debuts on IEEE Explore: [IEEE/ACM Transactions on Computational Biology & Bioinformatics](#). The [IEEE/ACM Transactions on Computational Biology and Bioinformatics](#) will emphasize the algorithmic, mathematical, statistical, and computational methods that are central in bioinformatics and computational biology, the development and testing of effective computer programs in bioinformatics, the development and optimization of biological databases, important biological results that are obtained from the use of these methods, programs, and databases; and the emerging field of systems biology, where many forms of data and biological knowledge are used to create a computer-based model of a complex biological system.

## **ELECTRONIC RESOURCES**

**E-journals**

### *Open Access Announcements*

[Oxford University Press \(OUP\)](#) announced that the [Nucleic Acids Research \(NAR\)](#), one of the most important [OUP](#) journals, will adopt an open access publishing model starting in January 2005. Institutional subscribers to [NAR](#) become automatically institutional members. All authors from member institutions, including authors from George Mason University, will pay a processing fee of \$500 per article, compared with the full charge of \$1500.

Starting in 2005, the new open-access edition of the [Proceedings of the National Academy of Sciences \(PNAS\)](#) will include an institutional membership automatically with every institutional site license. The memberships will give authors from those institutions, including George Mason University, a 25% discount on the \$1,000 article processing fee.

[Cell Press](#) has announced that access to the online archive of the [Cell Press](#) collection will become freely available beginning in January 2005 on both [ScienceDirect](#) and on the [Cell Press](#) journal sites.

## **MEET VICTORIA SHELTON,** **Mercer Library's Bio/Life Sciences Liaison Librarian**

Mercer Library staff, along with the Prince William Campus community has had the privilege of working with Victoria Shelton, Bio/Life Sciences Liaison Librarian, since 2001. Victoria provides liaison services to all GMU life science departments including the School of Computational Sciences/ Bioinformatics, Molecular and Microbiology Department, National Center for Biodefense, the Krasnow Institute, and American Type Culture Collection. Over the past few years Victoria has been well-deserving of her Immediate Recognition Award in 2002 and the ITU Employee of the Month Award in April 2004. In addition, she publishes book reviews in her subject areas. Faculty, staff, and students at all campuses of George Mason University enjoy working with Victoria. Her professionalism, enthusiasm, and hard work are highly valued by all library patrons.

Victoria completed her BA in Philosophy at Saint Petersburg State University, and her MLS at Texas Woman's University, Denton, TX. Her paraprofessional library work experience includes 10 years in academic libraries, both in Russia and the United States of America.

Some of her responsibilities include providing general and virtual reference service; individual and group instruction; developing instructional tools; designing web-based information resources; developing and managing sciences library collection; serving as the Reference Services Coordinator; and representing the Mercer Library on committees, task forces, projects, etc. within the Prince William Campus, the University, and community. In addition to all this, Victoria provides in-depth reference training to Mercer Library staff under a system she created in the Spring of 2002.

Victoria has extensive training in various computer applications, including Microsoft Office, and is familiar with web design. She is comfortable with database/Internet searching and information resources evaluation. In addition, Victoria enjoys creating print and electronic instructional materials, is good at visual designing,

drawing, and publishing.

Mercer Library staff and patrons have found Victoria a very open and willing mentor. She encourages professional growth in others and provides insight into a number of her personal interests, as well as her professional ones. Her welcoming demeanor leaves an impact on those around her. Victoria enjoys finding answers to difficult questions, solving problems, creative projects such as writing and web site development, and brainstorming new ideas for services and resources to enrich a patron's experience. In her own words, Victoria feels that working at GMU holds "numerous possibilities for creativity and professional growth." She also enjoys the academic freedom, the trust, and the respect of the University and fellow faculty, staff, and students.

On a personal level, Victoria enjoys intellectual challenges such as active reading of the classics and non-fiction works. She also enjoys living near the Blue Ridge mountains and takes time to hike, canoe, and photograph wildlife and natural objects. Victoria thrives on a constant education, professionally and personally. She loves to learn new skills and subjects.

Please take time to meet with Victoria Shelton in George Mason University's Mercer Library. It is well worth the visit!
