Finding Accessible Media @Mason

This tutorial will show how to find accessible media using Mason Search.

1. Open a web browser to library.gmu.edu. Enter your title/keywords into the Mason Search box.

2. Refine your search to “videos” using the resource type filter on the left-hand side of the screen. Select the film you are searching for.

3. Go to the section titled “Subject” under “Details.” Here you will find information about language, closed captions, and audio description.

HELPFUL TIP: You can select links like “Video recordings for the hearing impaired” to view more films with the same accessibility resources.
